PROJECTS

Text To Speech

It is responsive webpage made with vanilla Js & Bootstrap that recites the text you enter in the input box. This uses TextToSpeech Web API and hosted on Netlify.

Movies DataBase

This webpage uses ombd API to render movies dynamically using React Js and hosted on Netlify.

Weather Application

React Js webpage that uses OpenWeather API that shows current weather data rendered according to the user input of city and hosted on Netlify.

Password Generator

Password generator is a project that only uses vanilla Js to produce a password and hosted on Netlify.

YouTube Clone

Responsive website uses YouTube API and displays max 6 results.

Education

Secondary Education 2017

Saupin's School Chandigarh is where I completed class 10th with 85% or 9.2 CGPA.

Senior Sec. Education 2019

Completed cleared all subjects in 2019.
